# Have you used Nuxt 3 before?

Yes

[roe.dev/v/3](https://roe.dev/v/3)

12

Only Nuxt 2

[roe.dev/v/2](https://roe.dev/v/2)

10

Not at all

[roe.dev/v/no](https://roe.dev/v/no)

118

# What is Nuxt?

- ◆ a **progressive** framework built on **Vue.js** and **Nitro**
- ◆ **zero-effort** start with great DX
- ◆ **best practices** built-in
- ◆ fully **configurable** & easily **extensible**

## Opportunities to rethink

- ◆ Vue 3, Webpack 5 and PostCSS 8
- ◆ **serverless** + **JAMstack** innovations
- ◆ new **targets** (workers, Deno, bun) and **ESM**
- ◆ **TypeScript**-native, **composable** architecture

# The Nitro vision

the next-generation rendering engine that powers Nuxt 3

- ✦ JavaScript that runs **anywhere**: Deno, workers, bun, Node.js, browser
- ✦ optimised for **speed** and **low cold start**

... a move *to the edge*.

... powered by unjs

UnJS

Create, build and deploy universal web servers. The open engine powering Nuxt and op

TypeScript 2.3k 276

**h3** Public

Minimal h(ttp) framework built for high performance and portability

TypeScript 1.8k 95

A night sky with the Milky Way galaxy, a meteor streak, and a mountain silhouette. The sky is dark purple and blue, with the Milky Way visible on the left. A bright meteor streaks across the center. The bottom of the image shows a dark silhouette of a mountain range against a faint orange glow on the horizon.

... so let's dive in and build a framework on Nitro.
